

SALE RESULTS – JUNE 18, 2009

PRICES SHOWN IN US DOLLARS

Fur Harvesters Auctions Inc's final sale of the season concluded with results in line with our past May 09 auction. June had a few surprises as beaver advanced over May, and clearances on most articles were better than expected. This concludes what everyone in the fur trade considered a most trying troublesome season. As the world financial crisis took hold in the beginning of the 08/09 fur season and carried thru to the end, our industry like most commodity industries looks forward to a upturn by early fall. As oil prices rise and global confidence is beginning to return we remain optimistic by fall 2009 the outlook for wild fur will improve. We have all seen this before and will again. As for this moment we wish to thank you all for your continued support and wish each and everyone a safe and relaxing summer. Until next season keep the faith.

Respectfully

Mark Downey
 Chief Executive Officer
 Fur Harvesters Auction Inc
