

## SALE RESULTS – MARCH 11th, 2009 PRICES SHOWN IN CANADIAN DOLLARS

Fur Harvesters Auction's March 11, 2009 wild fur sale held in Seattle drew a large crowd of international buyers. Results on sable realized significant increases on northern goods for larger sizes compared to recent sales. Smaller eastern sables sold at recent market levels. The demand for wild fur remains positive but the global financial crisis has placed all buyers and manufacturers on cautious footing. We sold at levels previously set and held the line on what we felt were reasonable values on all wild goods. To sell at any level is not our policy as this is not in the best interest of our shippers and buyers, and is considered irresponsible as this would only further shatter the confidence of our industry. Our sale reflects what we believe is a responsible position that protects the value of the wild fur product. As confidence returns, prices and clearances will move forward. We thank the trade and our valued shippers for their unwavering support during these difficult times.
