

## SALE RESULTS – JANUARY 7, 2011

*PRICES SHOWN IN US DOLLARS*

Fur Harvesters Auction Inc. opened the season with the first offering of wild fur in 2011. All markets were active. The sale saw renewed interest in long hair varieties, such as Red Fox, Coyote and Fisher which reflects the strength of this year's trim business. Ranch Blue and Shadow Fox achieved excellent results. Our fine collection of Western Lynx Cat received strong interest from the Italian and Greek markets. Beaver saw advances for blankets and extra large sizes, however overall this item is still difficult due mainly to the lack of dressing capacity. Recent nervousness in the Chinese market was reflective in our muskrat sale. Still prices were inline with last year's May levels. Prices continue to slowly advance for otter while wild mink prices were firm. Being first off the block is never easy for either the producer or buyer and FHA would like to thank both our shippers and buyers for making this auction a success.

Species	Offered	% Sold	Section	Average	Top
<b>Beaver</b>	25,712	77% P.Lots	Eastern 1 <sup>st</sup> Section	\$20.63	\$47.00
